Situated atop a ridge in the gated enclave of Sky Terrace, this Blue Heron Modern Masterpiece blends seamlessly amidst the natural beauty of the desert backdrop. Enjoy indoor/outdoor living at it's finest while taking in the incredible colors of the sunset skies and the dazzle of the Las Vegas Strip lights in the valley below. The disappearing doors from the living room and the downstairs master retreat invite you into the tranquil backyard featuring an infinity edge pool, raised up spa, fire pit & built in BBQ. **Live Inspired!
